

# MFC-MICHÈLE DIDIER

Booth E6, Hall 2.0

**Art | Basel**

**Basel | June | 18–21 | 2015**

This year mfc-michèle didier occupies a corner booth, E6 on the ground floor, which is considered a privileged booth location in a fair. For such an exceptional location, one must take exceptional measures; so mfc-michèle didier has chosen a large-scale display. The publisher has decided to exhibit almost all its productions. All the angles will be considered: books, multiples, prints, posters, neon works, and even Augmented Reality; productions from the nineties until 2015. However, the right angle remains dominant, the rigorous display won't deceive this constant that has now become the publisher's signature.
